THE LIGHTHOUSE

Solidor®

Leading the way in secure composite doors

Introduction

The Solidor Collection is an outstanding range of industry leading, solid laminate, timber core composite doors. Each Solidor exceeds building regulation requirements and combines traditional and contemporary styling with a full range of Secured by Design locking which provides a stunning, high quality and secure entrance to any home.

With a thickness of 48mm, a Solidor door is nearly 10% thicker than most alternatives. Each unique solid timber core is completely encapsulated within a highly durable plastic edge banding and two thermo plastic door skins. This means that your customer will never have to worry about painting or varnishing their Solidor.

These doors are exclusively available in the widest range of styles and frame colour options, (20 colours available, please see page 8) with the option of a mobility threshold, making it the perfect solution for easy wheel or push chair access. We offer a comprehensive range of matching coloured frames, that are available with either glass, composite side panel or quarter panel to compliment the look of any property.

Solidor composite doors are manufactured to the highest standards. We hold BSI Kite mark accreditation BSI ISO 9001 for quality management, BSI EN1279 for insulating glass units.

We are also PAS24:2016 certified, hold CE Marking and Secured by design licences, are members of the prestigious GGF and Association of Composite Doors.

Choosing **Solidor**®

We understand that knowing your home and family are protected is a major factor when choosing your new doors.

You can rest assured that with our door construction, coupled with our unique, reinforced door frame and Secured by Design locking systems, your property will be as safe as can be when you choose Solidor.

The Comparison

PAS 24 - 2016 CERTIFIED
7/10 COMPOSITE DOORS ARE NOT PAS24: - 2016 READY, SOLIDOR IS!

A typical foam filled construction

- Only a small section of the door is actually solid.
- Thermally good, but foam filled so not solid, nor secure.
- Gel coated GRP may be strong but it scratches very easily and can be cut through.
- Most other doors have frames containing lead stabilisers.
- The frames are only 3 chambers thick and use valuable steel or aluminium reinforcements.
- Can be cut through in 90 seconds

Solidor® construction

- Lead free, 5 chamber profile with 100% recycled reinforcing.
- Thermally efficient Solid Timber Core.
- Robust through colour thermo plastic skins.
- Realistic wood grain effect.
- Optional integral mobility access aluminium threshold.

Solidor KNOCK TEST

CE

Security

The **most secure** composite door on the market

Lock options

The Largest Deadbolt in the UK!

On lever handle doors we fit our Avantis Secured by Design lock. This has the industries largest 25.4mm deadbolt for added security.

It also has built in compression and dampeners to give the smoothest operation on the market.

Automatic AV2 Mech Lock

The automatic AV2 mechanical lock operates as a slam secure lock as soon as the door is closed.

AV2 B allows home owners to unlock the door from a distance using a remote control device. (Only available with a lever/lever handle)

Automatic AV3 Mech Lock

The new autoLock AV3 automatic multi-point locking system has a magnetic trigger in the frame. Two self-locking sturdy hooks provide security and two sealing elements ensure correct closure.

An optional daytime release function can be integrated with easy one-handed operation or motorised release.

Lock Positioning

Standard Slam Shut Auto lock

The Slam Shut lock is an automatic multi-point locking system. It features two

self-locking hooks to provide additional security and two sealing elements ensure correct closure.

Heritage Slam Shut Lock

The aesthetics of a traditional rim latch, but incorporates the latest high security slam shut technology.

The lock automatically engages as the door closes.

Key Operated Multi-Point Lock

Customers who do not want handles can upgrade to our key operated multi-point lock.

The **Solidor** Promise

At Solidor we are committed to doing our part in helping the environment, believing that the future of our planet is important, not only for ourselves, but for the future of our children. With many industry firsts already, we are always looking to pioneer greener products and methods.

That's why we minimise our waste and run an extensive recycling programme. We recycle all of our packaging, polystyrene, cardboard, PVC-u, timber, paper, aluminium and steel. All of the timbers used in our doors are harvested from forests which are managed to meet the social, economic and ecological needs of present and future generations.

Our Green Credentials

Timber can make a significant contribution to sustainable construction

1. Wood is naturally renewable
2. It is independently certified to be sourced from sustainably managed forests
3. Doors with timber cores save energy
4. They last longer
5. They add to our quality of life
6. They have fewer environmental impacts than other materials
7. Complies with minimum U-value requirements for building regulations

- 100% recycled thermally efficient reinforcing system
- 5 chamber lead free thermally efficient profile
- Extensive recycling programme
- Door can be recycled at the end of its useful life, not destined for land fill
- Fully manufactured in the UK to minimise our carbon footprint
- Lead free door skins and edge banding

CONTEMPORARY

Italia Collection

The Italia collection from Solidor is a new generation of truly contemporary designs which will add a touch of style to your home. Carefully designed and crafted from the finest materials, every door in the Italia collection has a definite style inspired by the Italian passion for design.

Each door is handmade in Staffordshire, ensuring the finished product is of an outstanding quality and made as individual as can be. Choose from a range of glass styles and door furniture which have been carefully chosen with the latest fashion and designs in mind. All of the doors in the Italia Collection are also available with Warwick Glass - hand made so no two pieces are ever the same.

As with any product from Solidor, you can be assured of the outstanding quality of our solid laminate 48mm timber core composite doors which combine modern styling with high security locking systems.

French Doors

All of our designs, in all of our colours are available in a French Door option, with a range of handle options, encompassing a high security, adjustable, multipoint locking system.

Available as inward or outward opening doors. Because our French door range is so vast, please contact us for the minimum and maximum sizes before you order your set.

NOTE: Available with UPVC and aluminium threshold on inward opening sets, and UPVC only on outward opening sets.

Flush, integrated two way lever, which throws the shootbolts and removes the need for a lever handle and cylinder to give the option to use our Italia Collection handles on both leaves, alternatively, go for lever operated!

Standard option is both doors to be lever handle operated.

Stable Doors

The majority of our standard and many of the italia Collection door styles are available as open in (only) stable doors. Available in any colour on any side.
(contact us for more details)

All of our stable doors come with a high security, fully adjustable multi-point locking system. They are also keyed alike, benefit from an internal thumb turn cylinder on the top and bottom half and have a latching security bolt as standard.

Side Panels

Complement your property with a full range of matching full height and half side panels.

(contact us for details on the full range of side panels available)

Finishing Options

OUTER FRAME OPTIONS

Which frame would you like? Choose from Kömmerling Chamfered C70 or Sculptured O70 outer frame.

EDGE BANDING COLOURS

White as standard, brown on Rosewood / Walnut and Schwarzbraun when coloured both sides, caramel on Golden Oak and Irish Oak when coloured both sides. For all other dual colour combination white edge band is use.

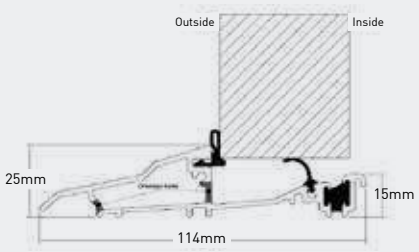

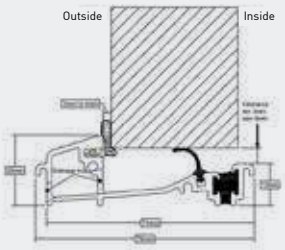

Thresholds

To allow for every circumstance we offer the largest range of door thresholds. The AM3 and AM5EX aluminium threshold are both Part 'M' compliant within the latest Building Regulations for easy access.

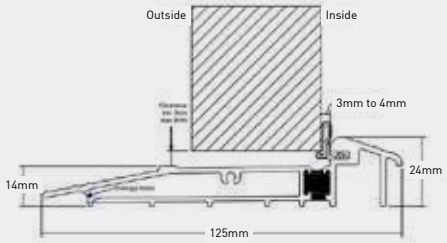

AM3 (available in gold or silver)

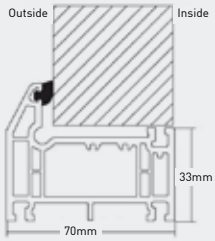

AM3-70

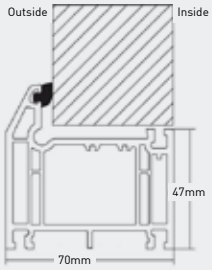

AM5EX (Mobility Threshold) (open out)

Low UPVC

Standard UPVC

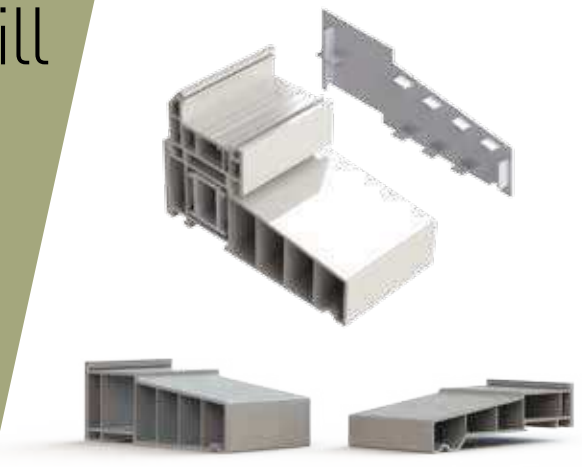

Authentic deep nose cill for your **Solidor**

Old imperial bricks varied in height, metric bricks are 65mm. Old timber cills were deep and often aligned with a course of bricks.

At 55mm The Radlington is a modern interpretation of a traditional cill, so if you are replacing your timber cill, the end result will look beautifully authentic.

Upgrade your Solidor with a Radlington cill today, available in 8 stunning Solidor colour colours to match your frame.

"Compared to the generic slimline cills, there is simply no comparison."

Gareth Mobley, CEO - Solidor

THE RADLINGTON GLOUCESTER
