DISTINCTION
DOORS

A DOOR FOR EVERY HOME

Your door journey starts here

With over 300 door styles, a bespoke colour palette and glass range to choose from, you can create a personalised Distinction door that is truly unique to your home.

Choose your door colour

Let your imagination run wild with our collection of exclusive colours. Specially selected by our design team, there's a colour to suit every home.

Choose your door style

Your front door is the first thing visitors will see. Cherry-pick your perfect design from a wide variety of traditional and contemporary styles. Use our online door-designer configurator to create your new front door today at door-designer.co.uk.

Choose your glass design

Complement your new composite door with one of our decorative glass designs. Providing the finishing touch, there's a design to suit every property style - traditional, period, contemporary and modern.

Colour guide 66

Come home to the most energy efficient door on the market

There are many ways to improve the energy efficiency of your home, actions which can reduce energy bills and create a warm and comfortable home. Amongst the most common methods are adding wall and loft insulation and draught-proofing.

But did you know that low performing, ill-fitting doors and windows can also cause heat loss and subsequently impact energy usage.

That's why we have developed the most thermally efficient entrance door on the market.

When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

Investing in a new high-performance Distinction door will boost insulation levels and reduce draughts and cold spots, making your home extra warm. Enabling you to turn the thermostat down a degree or two!

Plus, there's the added bonus of it being more secure. Oh, and did we mention giving your home enviable kerb appeal!

But don't just take our word for it.

Today, 1 in 4 entrance doors installed in the UK is a Distinction door. We are the UK's leading composite door manufacturer with more than four million doors installed across the country.

We are very proud of our door's credentials and its ability to meet the most demanding technical requirements.

1 Not just skin deep

The perfect balance - the thickness of the door skin combined with the high insulating foam core is what makes a Distinction door the best product in the market by far.

2 At our core

At the heart of a Distinction door is our insulating foam core. This acts much like cavity wall insulation that can now be found in many modern homes.

3 As clear as day

With our glazed door styles, it's only right that the glass meets the same high standards as our doors. With our double and triple glazed options laminated as standard, you get double and triple the protection helping to reduce heat loss and air leaks for extra warmth, security and peace of mind.

4 A snug fit

Each Distinction door is designed for a snug fit. Compression strips and brushes create a seal with the door frame when the door is closed. This prevents heat loss, air leaks and cold conduction through the frame. Appropriate and well-fitting hardware can also stop air leakage.

Over 50% more thermally efficient than a solid timber core composite door*

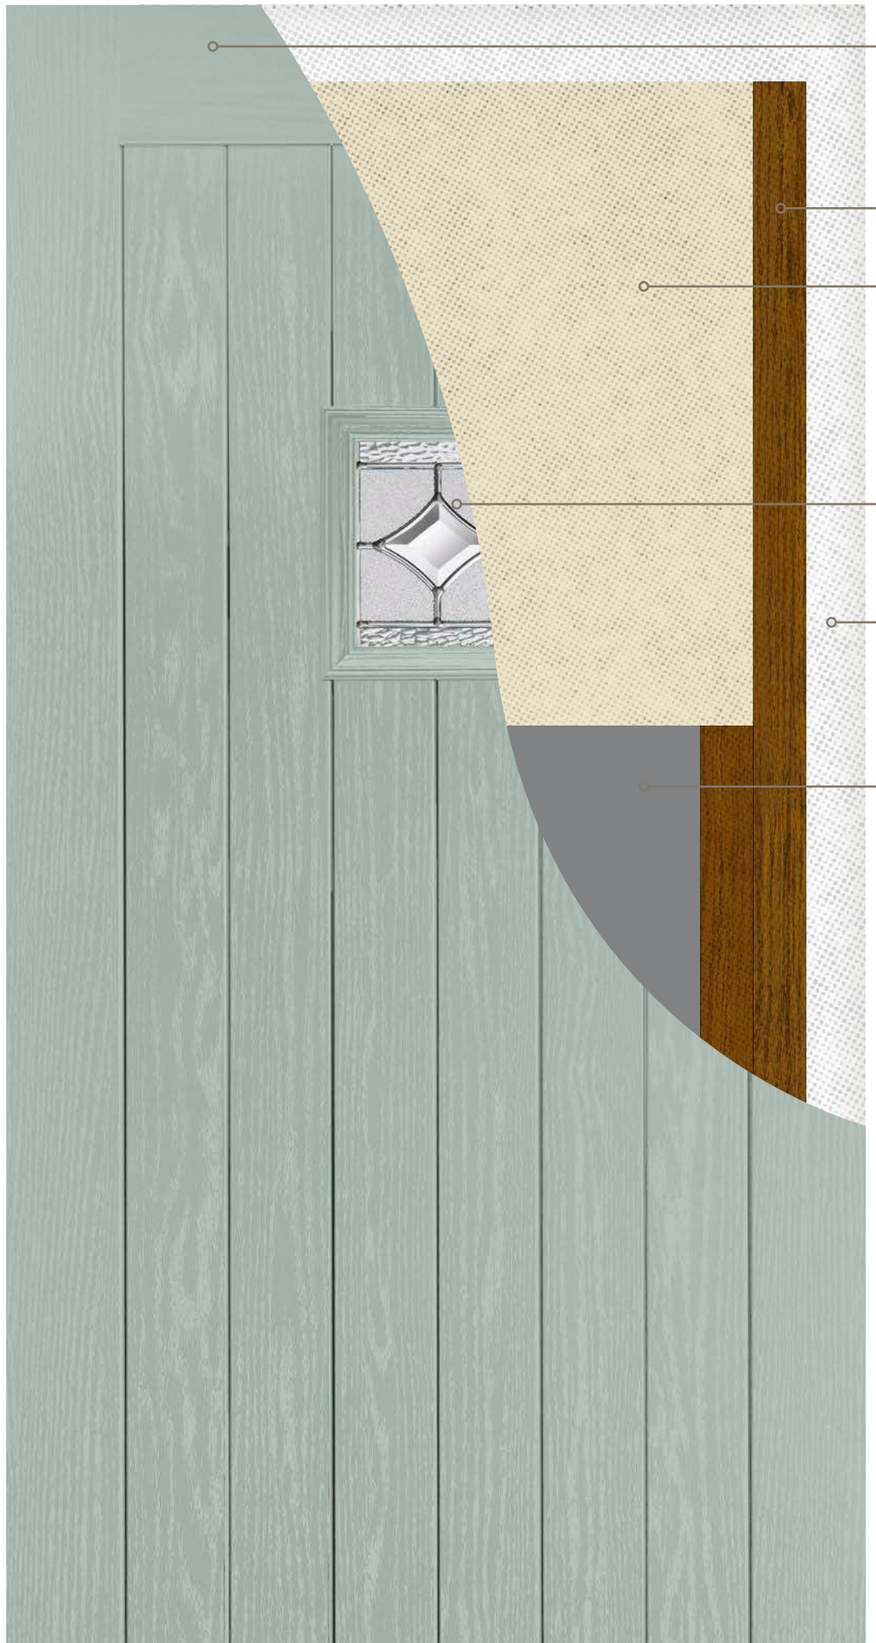

* Based on indicative door calculations

Tried, tested and trusted

At Distinction Doors we believe in innovation without compromise.

With almost 20 years' experience, we use our expertise and knowledge to continuously develop our products. That's why our revolutionary nxt-gen, traditional Signature and contemporary Glass Reinforced Plastic (GRP) composite door blanks comfortably meet the latest standards and exceed the expectations of UK homeowners.

As composite doors become more widely available, and with more choice than ever, it's hard to know what you should look for in your new door. But don't worry, we're here to guide you through, explaining everything you need to know about composite doors…

Quality you expect
We have the best product in the market by far. Our superior GRP doors have a high impact resistant skin with a beautiful woodgrain finish which gives a Distinction door an authentic and premium aesthetic.

Engineered wood
For improved stability.

Foam filled core
The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

Decorative glass
Triple glazed and laminated as standard 24mm glass units for extra security and peace of mind.

Water-resistant composites
Thanks to the water-resistant polymer composite rails, our doors will help keep water absorption away, this helps prevent a bowed door that could happen with solid timber core composite doors on the market.

Reinforced core
The reinforced central board gives you extra reassurance that your Distinction door is both solid and secure.

We believe that everyone should feel safe and secure in their home, that is why our products* are Secured by Design (SBD) accredited.

SBD is a widely respected and long-established official police security initiative operated by the UK Police Service.

It provides a recognised standard for all security products which can deter and reduce crime, and help people live more safely.

Our SBD accredited products are available through SBD approved door fabricators only.

They have been rigorously tested by the United Kingdom Accreditation Service (UKAS) accredited independent, third-party certification body and meet the security requirements of the SBD Police Preferred Specification.

For more information, please visit: www.distinctiondoors.co.uk/secured-by-design

The colour palette

Colour has the ability to change your mood, spark an idea and trigger a reaction. We categorise things by colour and we all have our favourites. That's why it's important to choose the right colour for your front door; you are setting the mood for the whole house.

Carefully curated in-house, our non-toxic, odourless, low emission and eco-friendly bespoke paint range offers something different.

Discover deeper, richer tones; classic and delicate neutrals; and shades designed to bring joy.

You can choose a colour for both inside and out, and they don't need to match.

Industry expertise

Emma
Design Expert

An entrance door sets the tone for the rest of the home. By painting it a unique colour, it can open, quite literally, a world of endless possibility.

Lorna
Design Expert

The desire for comfort has led trend setters to turn away from cool tones and instead, inject warmth into our base colours.

Tristan
Design Expert

While intense tones of blue, yellow and green will add depth to our style choices. Bright pink is an option for those wanting to be Insta-ready.

Glass

What really sets our doors apart from the rest is our exclusively designed glass.

Ensure that your entrance is the best it can possibly be by choosing from our stunning range.

Only found in a Distinction Door, our decorative glass is triple glazed and laminated as standard and goes hand in hand with our superior quality doors.

Our double glazed options also carry the highest quality.

Furthermore every one of our Esprit collection, features individually designed glass to suit that specific door style for a perfect entrance way.

Enclosed Mini-blinds

An enclosed mini-blind is the perfect solution for controlling light and privacy in your home.

Mini-blinds can be handed left or right and have a simple control mechanism to be raised or tilted with one hand. This system uses a magnetic tab rather than a traditional cord, so is completely safe for use around children.

The mini-blind is enclosed within two panes of glass in the frame so never require painting and are protected from damage and dust. They are a stylish finishing touch to any external door.

Colours shown should be used for guidance only as the limitations in the printing process may mean that colours vary from those illustrated.

nxt-gen

The front door. We all know how important it is. It's the first thing we see and we use it every day. It protects us and our possessions and helps keep our home safe and warm. All the while, we expect it to look good, and stay looking good.

That's why we have developed the nxt-generation composite door. Our nxt-gen range combines innovation and simplicity with the performance you'd expect from a modern composite door.

Characterised by sleek lines and a flush finish, the nxt-gen range oozes style.

Make it your own and choose from over 30 bespoke colours and a wide selection of decorative glass. The nxt-gen range - front doors for modern life.

Signature

A quality front door says a lot about the owner. It makes a statement. It speaks of intent, character and aspiration. Our Signature range does exactly that.

With a more traditional finish, our Signature doors are designed to complement and respect the architecture of your home.

This range is the perfect choice for those wishing to add a touch of classical style and elegance to their home.

With our Signature range there's a door to suit every property. Modern or traditional. Town or country.

Enhance your entrance...

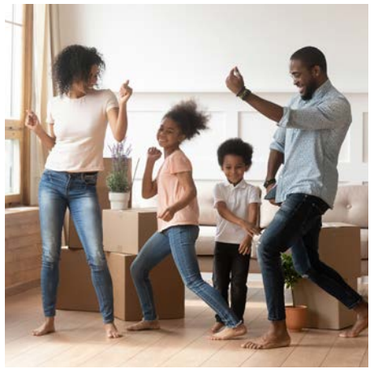

Add various pots and planters beside your front door to add a pop of colour.

Double rebate doors

Sometimes it's the little things in life that can give the most satisfaction. The feel of reassurance and quality you get from closing a thicker and heavier door is a perfect example.
Our collection of double rebated doors are almost 50% thicker, and you can enjoy over 35% better thermal efficiency to help the environment and your heating bills. Improved noise reduction also helps your home remain a sanctuary of peace and quiet.
Choose our 50mm triple glazed, laminated glass units for extra security. Glass available: Aspen, Edwardian, Kara (Zinc or Brass Caming only) and Monza.

Disclaimer: Please note this range is not SBD accredited.

Double the difference

In short, a double rebated door is exactly as it sounds - a door with two seals. Giving extra reassurance against unwanted adverse weather and sound.

**Cassette available in one steel effect colour offering on the internal and external face. The cassette is not available in any other colours
Subject to availability.

Technical Guidance

Tristan
Design Expert

Simply wipe your composite door with warm soapy water.

Cleaning and Maintenance

Your Distinction GRP composite door has been designed to be easy to maintain.

To keep your door clean, prolong the life of the surface finish and protect your warranty, we recommend you wash it regularly using warm soapy water (washing up liquid is ideal) and a soft, lint-free cloth. If you live in a coastal area, in a heavily industrialised area or near a main road, you may need to clean your door more frequently.

It is important that you DO NOT use any of the following on your door:

- Abrasive cleaners or scouring pads
- Any type of bleach or solvent (e.g. white spirit, methylated spirit, cellulose thinners, acetone or nail varnish remover)
- Any type of adhesives or tack for providing temporary protection or fixing of seasonal or other decorations etc.
- High pressure or steam cleaners.

Technical Figures

A Distinction GRP composite door has a wealth of facts and figures that prove its quality. The door:

- Reduces outdoor noise by an average of 31dB
- Achieves Global Warming Potential (GWP) score of less than 5
- Achieves Ozone Depletion Potential (ODP) score of zero.

Decorative Glass

Features and benefits:

- Decorative triple glazing
- Obscure double glazing
- The decorative centre pane of the triple glazed unit is sealed within the unit therefore, it is protected from dust and weathering and easy to clean
- 6.8mm glass laminated as standard
- 50mm units available for 70mm doors
- Glass patterns may vary
- Slight bubbles, lines and surface imperfections are all characteristics of glass. They are not to be considered as defects as they add character to decorative glass.

Triple glazed decorative glass diagram

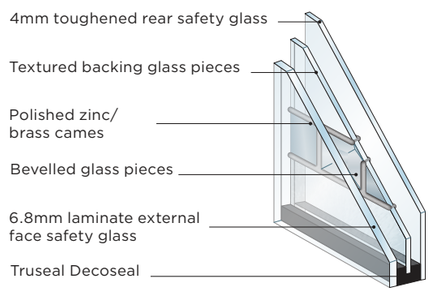

Diagram represents a typical make up of our triple glazed glass. Please contact us for further info
